Your Love

Totally Enormous Extinct Dinosaurs

I know my world want fall apart without you round
Its my time its my time to quit you know, its all over girl
(your love)
My world my world I can't give you, right now
I will find i will find don't you that i know i can't stand your loveCan't get enough
Your love
All I ever wanted
Was to be with you
Feels good
Just right
Don't you let me down
I've been working so hard(repeat)
