

# Old Man River (I've Come to Talk Again)

**Reba McEntire**

Cool breeze on the river ripples to the shore  
Wash away my troubles to the sea forever more  
Wind and willows whisper sadness in the sound  
Tell a tale of my once happy world that's fallen down  
Old man I might be going where you're bound  
Old man river I've come to talk again  
Yes I know you're tired cause your journey never ends  
He's just like you he's movin' all the time and I think he's movin' me out of her mind  
[ harmonica ]  
I want to travel with you in your deep and emerald soul  
That's the only way to make it peaceful like before  
We used to touch at midnight but now I feel he's gone  
Even though she's lying next to me I feel alone old man it looks like time to travel on  
Old man river I've come...  
Old man river I've come...
