

The Hollywood Rx

Midnight Reign

Your just feeding the corpse,acknowledging a ghost
Everyone is beautiful when your veins are filled with dope
With my hands behind my back,powdered poison I n the shell
Won't you take a ride in my rockin' chair it's gonna rock you into hellThe acid is melting won't somebody help
me
We'll all drown in sin the prescription is inI got liquid ecstasy runnin' through my veins
I'm gonna ease the pain with a little cocaine
Don't ever let'em tell you that it's all the same
It's the drugs in me that keep me sane..The snake is in the garden,the apples lost it's seed
You know that I'll do anything just to give me what I need
Run along little darlin' your holding up the lines
Close the bathroom door and be on your way,
Unless you wanna come inside
