

I Am Human

Ilse

ILSE - I Am Human

VERSE

You're warm but you feel cold
And you need someone to hold
 You want to be strong
Just when you think you're there
You find yourself back at the start

Sometimes I try so hard just to hit the wall
 I wanna fly but then I fall
 I get up but I can't go on
I wanna speak and I lose my voice

CHORUS

I am Human, I feel small
I've been through it all
 Still I stand tall

They say I should run away, run away, run away
They say I should run away, run away, run away
They say I should run away, run away, run away
 But I stayed
 I stayed

VERSE

You work and you're still poor
You have fears that you can't show
 You search for a way out
But somehow you can't seem to make it on your own

Some days nothing ends up right
You try to talk but you're in a fight
We wanna come close but we drift away
 When all we need is to stay

CHORUS

I am Human, I feel small
I've been through it all
Yet I stand tall

They say I should run away, run away, run away
They say I should run away, run away, run away
They say I should run away, run away, run away
But I stayed
I stayed
I stay
