## I Got Mine

## **Motörhead**

Here's the story, there's only me No other place for you to be It's only you babe, it's only you I can't believe the things you do Right now, right here Ain't gonna let you disappear Right now, this time You got yours and I got mine, c'monCome on lover, go back to start I got your picture in my heart It's only me babe, it's only me Refuse disposal refugeeRight now, right here You just might be my new career Right now, this time You got yours and I got mineCome on baby, stay close to me You got me fallin' out my tree Be my lover, the only one Be anything but don't be goneRight now, right here Ain't gonna let you disappear Right now, this time You got yours and I got mine
