

You Got Yourself Into This

Cracker

You got yourself into this
Now get yourself out
You got yourself into this
Now get yourself out You shine like a diamond deep in a coma
We can't keep away from you
You took your advantage, you made it perfectly
Baby don't you try to act so innocent You got yourself into this, it was your idea
No-one forced you to come along
You took charge, making plans, telling us what to do
You got yourself into this
You got yourself into this
Now get yourself out
You got yourself into this
Now get yourself out Shines like a diamond, treated like a dead? drop?
Setting up secret rendezvous each night
Burnt? like a hard? call?, keep it in the state? room
Meet me in the Oakland Airport Holiday Inn You got yourself into this You got yourself into this
Now get yourself out
You got yourself into this
Now get yourself out
Get yourself out
Get yourself out
