

# In His Words

## There For Tomorrow

I listen for it  
Scarlet voice to pull me in  
But me, I'm for it  
The face that reminds me where I am  
Just pull me in  
To lose or smile  
Over time  
A phone when they're dead (??)  
Just scarred my life with ignorance  
with ignorance, with ignorance!  
These words I give you  
Are great to heal the wounds  
I dream the thoughts we have (??)  
In his words!  
A transmutation  
TO turn my head the other way  
I won't let you die (??)  
Apparently not doing that  
But I will try it  
Forget that I'm dead, anyday  
Natural competence  
Just scar my life with ignorance  
with ignorance, with ignorance!  
These words I give you  
Are great to heal the wounds  
I dream the thoughts we have (??)  
In his words!  
(Sorry wasn't able to decipher these words very well)  
And once I kill you all  
The thoughts to help the wall (????)  
I make a sauce with eyes (????????????????!!!!!!)  
In his words!!
