

# Walk In The Blue Light

## Pentagram

My peace of mind depends on you  
My space in time is here with you too  
Drop all your dreams in the palm of my hand  
Step in the blue light, fulfill my plans  
Come with me now the midnight calls  
All are asleep as the kingdom falls  
Seeking our goals as a life had planned  
Walk in the blue light you'll understand  
Your sweet caress in the morning sun  
Gives me the strength for what needs to be done  
Soon we will hear the shades of the night  
Walk in the blue light all will be right  
Now you're confused so I'll set you straight  
Many men died 'cause they left it too late  
If you don't know what I talk about  
Walk in the blue light you can find out  
You'll find out
