

Pride

Earth, Wind & Fire

Mighty men have come and gone
But the pride lingers on
Heritage will claim every man
With desire to make a stand Some say pride's for the strong
What's the use, holding on
We say pride's everyone
Who wants to come, touch the sun While you pout, is your world
In doubt, it's all about
Life won't let you out of the scheme Just believe your dreams
Pressing on self esteem
Now participate, time for love, motivate
Energies to say, brighter you, brighter day Set your mind in view
Of the real man in you
[Incomprehensible] Time to check it out
Pride relieves all your doubt
We say pride's everyone who
Wants to come, touch the sun While you pout, is your world
In doubt, it's all about
Won't let you out of the scheme
