Something's Gone Wrong Again

Buzzcocks

Tried to find my sock
No good, it's lost
Something's gone wrong again
Need a shave

Cut myself, need a new blade

Something's gone wrong again and again, and again, again and Something's gone wrong again

Something's gone wrong againTried to fry an egg

Broke the yolk, no joke

Something's gone wrong again

Look at my watch, just to tell the time

But the hand's come off mine

Something's gone wrong againSomething's gone wrong again

And again, and again, again and

Something's gone wrong again

Something's gone wrong againNothing ever happens to people like us

'Cept we miss the bus

Something goes wrong again

Need a smoke, use my last 50p

But the machine is broke

Something's gone wrong againSomething goes wrong again

And again, and again, again and

Something goes wrong again

Something goes wrong againSomething goes wrong again

And again, and again, again and

Something goes wrong again

Something goes wrong againNothing ever happens to people like us

'Cept we miss the bus

Something goes wrong again

Need a smoke, use my last 50p

But the machine is broke

Something goes wrong againSomething goes wrong again

And again, and again, and again, again and

Something goes wrong again

Something goes wrong againI turn up early in time for our date

But then you turn up late

Something goes wrong again

Need a drink, go to the pub

But the bugger's shut

Something goes wrong againSomething goes wrong again
And again, and again, and again, again and
Something goes wrong again
Ah, something goes wrong again
Something goes wrong again
Something goes wrong again
