Still Waiting for You

Johnny Lima

Staring out my window
watching time go by
wondering if i'll ever look into those eyes

I feel I've seen a message
Why is it taking so long?
I said I'll wait forever but it's already gone.

I've been at this searching for you
but it took away the star in you
ohhh and you,you say you're on your way
but I'm still waiting
ohhh sometimes I can't believe a word you are saying
I'm still waiting for you.

I could go on without you
but I don't wanna try
cause since then I hope someday you'll be here by
my side

another lonely night without you
another broken heart
and you,you say you're on your way
but I'm still waiting
ohhh sometimes I can't believe a word you are saying
but I'm still waiting for you.
