

# Knocked Out

## [Trijntje Oosterhuis](#)

Shut down  
When I saw the look in your eyes  
I didn't see it coming babe  
Knocked out  
When you told me you needed time  
To see if I would miss you mabe  
You never told me that you felt this way not today  
You let me know that there's no other way what can I say  
.... Out  
Now you wanna do it alone  
I can't believe what just happened in here

Don't you promise me that you will never ever leave me alone  
That no one could replace me  
You told me you forgive me and forget the things I did wrong  
Cause that's how much you love me  
Push me away what is going on  
Don't tell me lies something here is wrong  
Honestly my love, this is not the time to give up  
Noooo  
Oh, it's not the time not the time

Touch Down  
When I see the look in your eyes  
How long have you been faking babe  
Knocked out  
When did you start living a lie  
You should have tried a little harder mabe  
I never guessed that you would walk away not today  
I would have thought that we could find away and make that change  
Knocked out  
So you gonna do it alone  
Noooo  
I can't believe what just happened to me

Don't you promise me that you would never ever leave me alone  
That no one could replace me  
You told me you forgive me and forget the things I did wrong  
Cause that's how much you love me

Push me away what is going on  
Don't tell me lies something here is wrong  
Honestly my love, this is not the time to give up  
Ohh

This is not the time  
This is not the time to give up  
Heeey  
Try a little harder baby  
This is not the time

(So wrong so wrong  
So long so long 8x)

So wrong to walk away  
Walk away  
So wrong  
Try a little harder baby 2x  
Heeey  
It's so wrong 3x
