She's The One

Blessid Union Of Souls

She makes me want to scream
She makes me want to shout her name
She makes me want to cry
Cause I know she feels the same for me
It's plain to see
She's the one
She's everything I need
She's the one
The star of all my dreams
She's the one
She takes my breath away yeah
She's the one
She makes me want to fly
When I can't go any higher
And it feels just like I'm dreaming sometimes
But I'm not the least bit tired
I'm wired
And every fear inside says
She's the one
She's everything I need
She's the one
The star of all my dreams
She's the one
She takes my breath away yeah
She's the one

And she leads me far away from here
I stopped looking
When you found me
I didn't have to think twice
Knew what I wanted
When I saw it
I knew she was the one
She's the one
She's the one
She makes me want to cry
She makes me lose control
And I'm far beyond defenseless
And I wonder if she knows

Does she know
She's the one
She's everything I need
She's the one
The star of all my dreams
She's the one
She takes my breath away yeah
She's the one
And she leads me far away from here
