

# Brightside

## Icona Pop

I wear a smile  
You ride the frown  
Always do my best to get you upside down  
When you're throwing shade, I rearrange the clouds  
Got my head up but we're going south...! I will be the rose to tint your glass  
Spray paint the lawn to get a greener grass  
I'll be your brightside then 'cause all I wanna do is make you feel a little better  
I'll be your cheerleader with no allowance, baby I'll be on the bleachers Get up, get up tonight  
I will be the one to show you your brightside  
Get up, get up tonight  
I will be the one to show you your brightside (To show you your bright side...) If the nightmares come, I'll wake  
you up  
I'll give you Lucky Charms and a sunny-side-up  
When your streak runs out, I'll win you more  
I'll be your four-leaf clover and a unicorn I will be the rose to tint your glass  
Spray paint the lawn to get a greener grass  
I'll be your brightside then 'cause all I wanna do is make you feel a little better  
I'll be your cheerleader with no allowance, baby I'll be on the bleachers Get up, get up tonight  
I will be the one to show you your brightside  
Get up, get up tonight  
I will be the one to show you your brightside  
To show you your brightside When I'm down here  
It can only get better  
See it all clear  
Well at least we're together  
Laying under the stars  
Thinking 'bout who that we are  
Claiming 'bout all that we are gonna be  
Laying under the stars  
I know that it's dark  
But let me show you the brightside Get up, get up tonight  
I will be the one to show you your brightside  
Get up, get up tonight  
I will be the one to show you your brightside To show you your brightside
