Come Lay With Me

Wiley

I know its a lot, its a lot
Man read my girls like hope its a lot
You fink I dont know this Im not like any other weird person
I crock it
If she dont stop it, Im off like a rocket
I know whats what
I know what Im worth
From music I bought to the end of the Earth
Girls wanna come first in ya life
Its a lotMaybe its me
Maybe its you
God only knows how it happened
But we know its true
Baby
I get the feeling that Ive found
My everything, when youre around
And Im lovin the way
(You kiss me gently)
And whisper my name
WoahSee this
The situation that we need to handle
So wont you come lay with me
So we can finally live our dream
X 2There will never be
Another who can love you like me
Ill take my time, we aint gotta rush
Your bodys stronger than my touch
The sexy vibe I get from you
I like it
So exciting
And, I cant control myself
Im in the mood, so dont fight it
Come on here cause I got this for youSee this
The situation that we need to handle
So wont you come lay with me
So we can finally live our dream
X 2Boy your love
Let me justFeels so
Know you want meIts no use, Im not gettin my work done

She wants me to lie down get comfy
Its not like we both get paid monthly
Loosen ya work and __ for you, money
Seekin new money for me n my honey
Ive gotta work so I fill up my tummy
Shed rather tease me than __ my program
And keep me in so I make minimal money
Its no use, shes kissin my neck
I dont wanna stop now
Keep kissin my neck
New double bed
Lets christen the bed
Wait up, youre seducing me
Ive got work to do
She got crazy
Next fing I knew I was in this bed
Gettin wicked in the bed
And I had about several marks on my neck
She got so wild, I will never forgetSee this
The situation that we need to handle
So wont you come lay with me
So we can finally live our dream
(X3)
