

Universal Love

Sons Of Zion

Out of everything I've ever been taught about love
Never ever did I ever think I'd feel like this, hey
Cos you make me feel like I've been floating on a cloud, just don't wanna come down
But then reality wakes me up I realise that I've been dreaming, oh And on the day when I find you
I wont have to second guess no more, cos I know that love is real I can be a tall, tall tree (tall, tall tree)
You can be the bird, I'm the melodies
You can be at one with the world, and the world would be one with us, yeah
And you can be a small, small stream
Moving into me like a river so deep
You can be at one with the world, and the world would be one with us,
So universally in love, love, love, love
Universally in love, love, love, love Lately I've been sitting home alone
With my pen and my paper, staying away from the telephone
Cos now I know that love ain't generated by the foolish things
Naturally I'd rather sit up in the sky
Watching all rain showers
And the wind as it passes me by
Cos now I see the beauty in them other things, hey And on that day when I find you
I wont have to second guess no more, cos I know that love is real I can be a tall, tall tree (tall, tall tree)
You can be the bird, I'm the melodies
Then we can be at one with the world, and the world would be one with us, ooh
And you can be a small, small stream
Moving in to me like a river so deep
You can be at one with the world, and the world would be one with us,
So universally in love Love can't hide
When you see it through another's eyes
The space in time
With me to eternity, yeah
Through it all
You come out of it
Free, ooooh, no And you can be at one with the world, and the world would be one with us
So universally in love You can be at one with the world, and the world would be one with us,
So universally in love.
