

Key to the World

Beat Farmers

Key to the city, keys to my car
Please get me there
Lemme go an inch too far
Cause when I get started
I can't seem to stop
I'm the life of the party
And I'm aimin' for the top So turn on the TV
Get outta my way
I am the future, I am today
Now I've got some money
The plans in my head
But the key to the world
Ain't so easy to get
Just who would know this
Any better than I
I've been tryin' to find it
For most of my life So turn on the boob
Get yer butt outta my way
I am the future, yippi-I-yea
Well dressed and pretentious
I think you know the type
I've been gettin' used to just takin'
Whatever I like
