

Honey Child

Bobby "Blue" Bland

Well, the first time that I met you, you were only 17
But I had to put you down 'cause I didn't know where you'd been
You had a long black dress, your hair in a messYou didn't seem to have no class
But the look on your face was no disgrace
I knew I had to move real fastHoney child, don't you know you drive me wild
Oh, honey child, don't you know you drive me wild
Just about to lose my mindWell, the second time that I met you, you were just turned 21
And all your talk about love, love, was gone, long goneOh, honey child, don't you know you drive me wild
Honey child, don't you know you drive me wild
Just about to lose my mind, yeahOh, honey child, don't you know you drive me wild
Honey child, don't you know you drive me wild
Honey child, don't you know you drive me wild
Oh yeah, honey child, don't you know you drive me wildHoney child, don't you know you drive me wild
Honey child, don't you know you drive me wild, yeah yeah
Honey, honey, honey, honey child, don't you know you drive me wild
