

Irresponsible

Splender

Well you've been pushing but I don't agree
'Cause there was nothing ever here for me
If you could see the circles in my eyes I tried
Let's get this whole thing out I cannot be responsible, I don't care
I cannot be responsible for you
Do you know where you are? Oh, God I can't believe that I'm still here
And it's purpose wasn't very clear
I'm gonna take the time to wash away this day
Let's get the whole thing out I cannot be responsible, I don't care
I cannot be responsible for you
Do you know where you are? With all I have and all you know
Don't trust me 'cause I'll hurt you so
As simple as a syllable
Be tired of my kind Let's get this out I cannot be responsible, I don't care
I cannot be responsible for you
Do you know where you are? With all I have and all you know
Don't trust me 'cause I'll hurt you so
As simple as a syllable
Be tired of my kind
