

Heart Attack

Enrique Iglesias

[Verse 1] Loving you was easy
thought you'd never leave me
yeah yeah Wrapped around my finger
see ya when I see ya

yeah yeah Now I'm hearing around
that you been running around I didn't think I'd miss you

Now I'm feeling like a fool
ooh ohh [Chorus] It hit me like a heart attack
when you finally left me girl

I thought I'd never want you back

But I don't wanna live in a world with without you I don't wanna live in a world with without you [Verse

2] Never really noticed

all the little things you did
you did Never bought you roses
always was around my friends

my friends And now I'm hearing around
that you been running around I didn't think I'd miss you

Now I'm feeling like a fool
ooh ohh [Chorus] It hit me like a heart attack
when you finally left me girl

I thought I'd never want you back

But I don't wanna live in a world with without you I don't wanna live in a world with without you [Bridge] Never

should have let you slip away

Living in a world that's turned to grey

Little did I know it hurt so bad

Cause It hit me like a heart attack €! [Chorus] It hit me like a heart attack

when you finally left me girl

I thought I'd never want you back

But I don't wanna live in a world with without you I don't wanna live in a world with without you No

oh [Outro] Now I'm hearing around
that you been running around I didn't think I'd miss you

Now I'm feeling like a fool

ooh ohh
