

Carry On

Uriah Heep

Carry on So what can I do, what can I say
Do I have to stand and
Watch you walk away
I know there's got to be
A better way
I just can't go on living for today I thought I heard a voice
Out on the wind
And I'm sure I heard it say
I'd find a friend
And it said I'd find
The answers in the end
All I gotta do is carry on Carry on, carry on, the time is flyin'
You need another love
Maybe another town
Carry on, carry on
Don't wait until your hope is gone
When your last chance
Comes round
