Dissolve

Elvis Costello

Sugar cube drop into a yellow cup
What makes the world just waking up
Resolve?
Dissolve
Who knows where on earth it's going to stop?
I can't hear you 'cause we're breaking up
Dissolve, dissolveAnd the stones in the track make work for the mechanic
And the birds all fly from the branches in a panic
And a back-fire echoes down the hillside
As the last headline report dies
Dissolve, dissolveIce is melting at the distant Pole
The gin and tonic glasses overflow
Dissolve, dissolve
The precious little else that I could say
Your stupid tears of laughter washed away
Dissolve, dissolveWhile the poisonous light pours from the picture palace
And it flickers on, tries so hard to be scandalous
A child keeps beating on a toy drum
And the tablets dropped on your tongue
Dissolve, dissolve, dissolve, dissolve
