

# Move On

## Heart

Talk talk these people are hammering in my brain  
Sayin' so much nothing it's making me insane  
Telling out them rumors its gonna get hard to take  
It goes on and on what you gotta tolerate But never you mind  
Hey, don't waste your time Move on let it ride move on leave it all behind  
And shine it on shine your light  
Don't look back just leave it all behind  
I'll see you some other time move on Them friends of many are really known by none  
Forever high school jealousy 101  
It make so much misery in this Clich town  
They just love to get it up for the big let down But never you mind  
Hey don't waste your time Move on let it ride move on leave it all behind  
And shine it on shine your light  
Don't look back just leave it all behind  
And I'll see you some other time move on, yeah move on See you on the flipside  
Hey, hey, hey  
Say hey But never you mind  
Hey, don't waste your time Move on let it ride move on leave it all behind  
And shine it on shine your light  
Don't look back just leave it all behind  
I'll see you some other time Now move on let it ride move on leave it all behind  
And shine it on shine your light  
Don't look back just leave it all behind  
And I'll see you some other time move on
