

# Ice Cream Truck

## Charizma & Peanut Butter Wolf

Feels like I'm losing my mind

Love is so hard to find

You led me on to believe, you belong to me

oohh ooohh

I'm going through difficult times

I always thought you were mine

Love doesn't feel like this, this is my final wish

The next time your truck rolls by

No matter how hard I cry

Please don't stop in front of me

Cause your love's no longer sweet

The next time I bring you change

Baby please pull back ya hand

You know you're not what I need

Let me go, let me do B

(2x) You've got me chasing after you like a ice cream truck, I try my luck and catch up, but it's always out of luck

Faster and faster I ran

You sped up and then

Just as I thought I've caught up

I'm chasing you again

Finally,

You stopped and I jumped on

I realized your flavor was wrong

You thought I was still holding on

It's good to know you're gone

The next time your truck rolls by

No matter how hard I cry

Please don't stop in front of me

Cause your love's no longer sweet

The next time I bring you change

Baby please pull back ya hand

You know you're not what I need

Let me go, Let me do B

(2x) You've got me chasing after you like a ice cream truck, I try my luck and catch up, but it's always out of luck.
