The Hangover

Flatbush Zombies

[Kayo]Yeah
I'd like to purpose a toast..
Uh
Dark rum, chased by bad dreams
Intoxicate my soul for these goals and mad schemes
I'm.. alright, it's gon' be a hell of a night again
I'm jus' tryin'a write again 'bout things that are right within
Man, this the life, i don't ever want this night to end
Who am i kidding? I just do this to excite my friends..
See my music's like a voice for my sins,
for my redemption, I'm like fuck it and just.. binge
'cause life's like the best nights and the worst days
Frequent fights 'cause you missed your wifes birthday
Lose friends but gain many acquaintances,
fake as shit, and always up in ya face with it,
but I ain't even see it
Dawg, I'm in that zone
They keep tellin' me, "man, just leave that shit alone"
But naw, dread, see life's a celebration...
I need that hangover, that's when the pain's over, so..
fuck sober
[Chorus][Classified]I don't wanna deal with the hangover,
I guess I gotta deal with the hangover,
[Jim Cuddy]I've got the sweetest hangover,
I don't want to get over..
I don't want to get over..

[Classified]Now on the road to life,
I mean life on the road..
It's hard to wake up every morning and get on the go
but vamanos, get up!
I love the job I chose
We party every night, maybe that's the wrong approach..
but what do I know?
I just know my body's sore,
my head's splittin',
and my driver's at the lobby doors
My crew's waitin' for me, tonight's another town
I just gotta get some rest before I shut it down

Pick it up, show time
Tonight I'll take it easy,
'til I realize how many people came to see me
Don't wanna slack or perform half-ass,
I rock every show like this could be the last Class.. act
and it's hard to party without drinkin',
give me just one,
but I ain't a social drinker, when I start I usually get drunk
Guess I'm goin' all night, continuin' the trend
Then I'll wake up next morning and I'll do it all again
This hangover is settin' in, and...
[Chorus][Classified]I don't wanna deal with the hangover,
I guess I gotta deal with the hangover,
[Jim Cuddy]I've got the sweetest hangover,
I don't want to get over..
I don't want to get over..
