

Closer to Heaven

[Alex Heat](#)

Never been closer to heaven
Never been further away
Never been closer to heaven
Never been further away
Give me hope, give me all your love
Tell me now, you're coming home tonight
Have some faith in the love we share
Is it fate? Does darkness end in light?
Never been closer to heaven
Never been further away
Never been closer to heaven
Never been further away
Where'd you go? Did you lose your way?
Tell me now, you're coming back to stay
In my hopes paradise is real
Horoscopes can't forecast how we'll feel
Never been closer to heaven
Never been further away
Never been closer to heaven
Never been further away
Give me hope, give me hope
Never been closer to heaven
Never been further away
Never been closer to heaven
Never been further away
Give me hope, give me hope
