

What a Feeling Like

Farmer Boys

Born to win
To win and win again
Ignore the pain inside
Blood and fame, bred and games
Keep the masses entertained
A dirty job that someone's gotta do
Like me
So take me, break me
What a feeling like
You never had before
Leaves me reeling and hungering for...
The crowd, it roars
It screams for more and more
I feel its voice inside
Losing time, losing face
Attacking with amazing grace
A dirty job that no one else can do
Like me
So take me, break me
What a feeling like
You never had before
Leaves me reeling and hungering for
