

Chips And Dip

Spoon

When she's got to say goodbye
After staying out late on a weeknight
And I walk on the side of the road
Under industrial lights
It can be such a shame
How short the night and day
And all that I've been for so long is trying to get right, yeah
And sometimes I can't make myself shuck and jive
Perfection's on her tongue rolls out in monotone
Oh yeah, yeah, and that's when the heartache goes

And I do the same you know I do the same you know
Here's the final row I do the same you know
It's just you can't see it ooh, chips and dip
When she's got to say goodbye
After staying out late on a weeknight
Sometimes I can't make myself shuck and jive
'Cause where the heartache goes
I do the same you know
Oh yeah, yeah
I do the same you know
