Something In The Past

Jesse Powell

We were together
Living as one
Until something happened
One day our love was gone
Always seems to be
Something in the past
Won't let us last by
Always seems to be
Something in the past
Won't let us pass by
We were together
Our love was very strong
Until you waited, brought up something from the past
Which broke up our lovely home
Always seems to be
Something in the past
Won't let us last by
Always seems to be
Something in the past
Won't let us pass by
I want you, do you want me?
I want you, do you want me?
Always seems to be
Something in the past
Won't let us last by
Always seems to be
Something in the past
Won't let us pass by
Some people win
Some people loose
Some always be in misused
Some people win
Some people loose
Some always cryin' loosely, oh no
Always seems to be
Something in the past
Won't let us last by
Always seems to be
Something in the past

Won't let us pass by
Always seems to be
Something in the past
Won't let us last by
Something in the past, yeah
