

Stay

DJ Encore

I won't pretend tonight
That what I did was right
I know I broke your heart
I tore it all apart Do you believe in destiny
And second chances? Stay tonight
Let the moment be forever
I don't wanna force your heart to Stay tonight
If we make it last together
Everything is gonna be alright I know the table's turned
I felt my fingers burn
And if you let me go
I'm just a fragile soul Do you believe in destiny
And second chances? Stay tonight
Let the moment be forever
I don't wanna force your heart to Stay tonight
If we make it last together
Everything is gonna be alright Stay tonight
Let the moment be forever
I don't wanna force your heart to Stay tonight
If we make it last together
Everything is gonna be alright Stay tonight Stay
Forever
