

Robots One, Humans Zero

Less Than Jake

So what have we really learned today
That some things are easier when we walk away
And acting normal means acting like everyone else
And you're better off by not even acting like yourselfAre we buying what they're selling
Do we have our eyes open
Life's not a fashion statement
It takes more than good intentions
[X2]It's a perfect day in our perfect little lives
Just as long as we have commercials and things to hide behind
It's a life so real you only watch it
On a movie screen getting so close you can almost touch itAre we buying what they're selling
Do we have our eyes open
Life's not a fashion statement
It takes more than good intentions
[x2]They never bought or sold you (sold you)
They can't image and mold you (mold you)
To chase something cause its new
Thinking that the best is best for youAre we buying what they're selling
Do we have our eyes open
Life's not a fashion statement
It takes more than good intentions
[x2]Life's not a fashion statement
It takes more than good intentionsLet me tell you what the score is robots 1 and humans 0
