With Your Badself

2 Live Crew

Badself!}Whenever I see you, my heart's like thunder
Verse 1: Fresh Kid Ice
I'd like to know you better, and that's no lie
Hey pretty lady, what's your name and number?
You're an angel from heaven, a blessing in disguise
Just give me a chance and let me try
Time stood still when I saw your eyes
Let me show you the things I one day feltSo go on!! {Badself!}
Verse 2: Brother Marquis
You got a face of a queen in a beauty contest
You got a body that's stickin'; some men die for less
You're a lady in the 80s, never wild or crazy
Just takin' your time, not having any babies
Not depending on others to get what you need
A modern-day woman with the will to succeed
Tryin' harder every day to increase your wealth,
So go on! {Badself!}Verse 3
They're so envious because she's not with it
[Kid Ice] She's the one I want to be in my life
[Marquis] All the girls don't like her because she's independent
She's a real lady; her mind's on other things
She can't be bought with gold or diamond rings!
The lady I need to be my wife
Never in a crowd, she keeps to herself
So go on! {Badself
