

Birds And Bees

[Ben Lee](#)

I get the feelin everyones feelin the same
Like somebody somewhere should be callin their name
Prayin in churches or out in the club
Everyones lookin, lookin for love
Birds and bees and songs like these
'Cause we want what we want and its natural, baby
Birds and birds and bees and bees
'Cause we want what we want and its natural, baby
Its not a secret, its not a crime
Ive never done this before, well, neither have I, yeah right
So I blow out the candles and Im makin a wish
Come over here babe and give me a kiss
Birds and bees and songs like these
'Cause we want what we want and its natural, baby
Birds and birds and bees and bees
'Cause we want what we want and its natural, baby
And its natural, baby
I get the feelin everyones feelin the same
You lean in close and you whisper my name
Youre whispering, youre whispering, life is but a dream
And you are so beautiful, you make me wanna scream
Birds and bees and songs like these
'Cause we want what we want and its natural, baby
Birds and birds and bees and bees
'Cause we want what we want and its natural, baby
And its natural, baby
And its natural, baby
