

Aluminum

Barenaked Ladies

How, in every visible way, you shine
As if the stars in your wake align
Almost impossible to malign But just below where you shine, you burn
Although I know it, I never learn
Just goes to show that I can't discern Aluminum to me, aluminum to some
You can shine like silver all you want
But you're just aluminum Illuminating just what you want to show
You'd never rust, but I'd never know
You can't be trusted, I can't let go Aluminum to me, aluminum to some
You can shine like silver all you want
But you're just aluminum Every time you're here, I forget
When you leave, you leave only regret
Every time you're here, I forget, everything You're so lightweight, how can you survive?
Recycling moments from others lives
You're not as precious as you contrive Aluminum to me, aluminum to some
You can shine like silver all you want
But you're just aluminum
Yeah, you're just aluminum
