## **Get Together**

## **Wilson Phillips**

Love is but a song we sing

And fear's the way we die

You can make the mountains ring

Or make the angels cry

Though the bird is on the wing

And you may not know, whyCome on people now

Smile on your brother

Everybody get together

Try to love one another, right nowSome may come and some may go

And we shall surely pass

When the one that left us here

Returns for us at last

We are but a moment's sunlight

Fading in the grassCome on people now

Smile on your brother

Everybody get together

Try to love one another, right nowCome on people now

Smile on your brother

Everybody get together

Try to love one another, right nowIf you hear the song we sing

You will understand

You hold the key to love and fear

In your tremblin' hand

But just one key, unlocks them both

It's there at your commandOh, come on people now

Smile on your brother

Everybody get together

Try to love one another, right nowCome on people now

Smile on your brother

Everybody get together

Try to love one another, right now

Right now

Right now
