Automatic

Stellar Kart

As sure as a phoenix sunrise
And the yanks in the playoffs every year
Youre absolutely faithful
Im positively prone to disappear
But like I breathe and my heart beatsI wanna love You like its automatic
Make You into my good habit
Youre the only one that really matters
Every minute, everyday its automatically okay
When I make it all about YouIts a mixed up, messed up world
With an unsatisfaction guarantee
So Im pledging my allegiance
To the one and only one who can set me free
Just like I breathe and my heart beatsI wanna love You like its automatic
Make You into my good habit
Youre the only one that really matters
Every minute, everyday its automatically okay
When I make it all about YouBut Im not a robot made with no thought
Whats the point of living life without the will to choose
To run with the have-nots or go with the sure shot
Im with YouI wanna love You like its automatic
Make You into my good habit
Youre the only one that really mattersLove You like its automatic
Tired of being so erratic
Youre the only one that really matters
Every minute, everyday its automatically okay
Every minute, everyday its automatically okay
When I make it all about YouGonna make it all about You
