

Slide In

Goldfrapp

You send me just colors
I'm waiting, don't hold back Trees bow to the wind and
I'm falling inside you Slide in, feel the future
Rushing slowly, right now So close, could touch it
I'm dreaming, don't wake up Slide in, feel the future
Rushing slowly, right now Nothing makes me feel like
Show me real love, right now You send me just colors
You send me just colors Slide in, feel the future
Rushing slowly, light now Nothing makes me feel like
Show me real love, right now
