## Slide In

## **Goldfrapp**

You send me just colors
I'm waiting, don't hold backTrees bow to the wind and
I'm falling inside youSlide in, feel the future
Rushing slowly, right nowSo close, could touch it
I'm dreaming, don't wake upSlide in, feel the future
Rushing slowly, right nowNothing makes me feel like
Show me real love, right nowYou send me just colors
You send me just colorsSlide in, feel the future
Rushing slowly, light nowNothing makes me feel like
Show me real love, right now
