Death Angel

Advisory - the following lyrics contain explicit language:

Step up it's time to face
Punishment from a different age
Are you witch or heretic
Wandering lost convictsTake a look you'll see
It's much bigger than you or me
Future sadomasochism
Leather whips and hardcore rhythmMake you fear make you tear
Memories that scar for years
Drain your brain of guilt and regret
What's your last requestEndless pain
Living hell
No drawn out trial
No bars, no cellShut up don't be a fool
Electrocution make you drool
Burn your skin in search of truth
Sink or float either way you loseDead man walking straight to die
Eat last supper read last rites
Obsessed erotic with a mind possessed
Hug the blade one last caressCut the hand gouge the eye
Hung and whipped and burnt alive
A flood of blood, a sea of pain
Torture modern dayEndless pain
Living hell
No drawn out trial
No bars no cellDead man walking straight to die
Eat last supper read last rites
Obsessed erotic with a mind possessed
Hug the blade one last caressCut the hand gouge the eye
Hung and whipped and burnt alive
A flood of blood, a sea of pain
Torture modern day
