Down, Down, Down

Hushpuppies

You knew we all have an end
That you'd be soon dead
To live your life with no strain
You thought that all would be grand
After you are dead
But now you will feel the pain

Down, down, down
You will be staying apart
Down, down, down
There is no higher ground

Hear that sound
For you there's no other start
Ring that bell
This is your highest round

Down, down, down
