

Shake It Loose

The Kicks

Shake the shackles tied around your feet
Lift the veil out from your eyes and see
Don't you think?
Don't you think?
Everybody wants come and see
What it is we see inside our dreams
Don't use me
Don't use me
Falling down
We're all coming down You know you can move it
I know you can move it
Use it you've gotta shake it loose Everything you've got is what you need
Don't call me out you'll come around to see
Wont you please
Let em sing
Falling down
We're all coming down You know you can move it
I know you can move it
Use it you've gotta shake it loose
