

Synthetic Generation

Deathstars

I play hell, you play heaven
I'm death's own little star...
Can you trace the sins that haunt you,
And play the devil's cards as I do? I am all that you see,
I am all that you want me to be! I am god and so the antichrist
I'm blessed, yet damned
I'm fallen, yet resurrected
I'm all of nothing! I play death, you play life, triple sixes to rise...
Can you see the visions I brought you,
And the devilish games that I taught you? I am all that you see,
I am all that you want me to be! I am god and so the antichrist
I'm blessed, yet damned
I'm fallen, yet resurrected
I'm all of nothing! Synthetic generation...
Stop not, it's indifference high you must know... I am all that you see,
I am all that you want me to be! I am god and so the antichrist
I'm blessed, yet damned
I'm fallen, yet resurrected
I'm all of nothing!
