This Is War

Vandenberg

You were the one that was always just telling the truth
Playing your game that was so very easy to do
I was believing you, easy to play with the fool
You made your plans like a pro, yeah you played it so cool
Time after time after time, you hurt this boy deep down inside
Time after time after time, but this time I'll get what is mine
Chorus:
This is war - ain't gonna take all this shit anymore
This is war - I'm gonna strike back this time, that's for sure
Sometimes two people can bring out the best in each other
But lately I feel that my evil side's beating the other
Somehow I feel that the worst in me is gonna show
I ain't gonna hold it back, I'm going to let it go
Time after time after time, you hurt this boy deep down inside
Time after time after time, but this time I'll get what is mine
This is war - ain't gonna take all this shit anymore
This is war - I'm gonna strike back this time
(Solo)
(chorus)
This is war! This is war! This is war!
