In Due Time

Killswitch Engage

Pacing aimlessly
When my mind is unrest
Unsure of what may come
What have I done to bring this down on me?
Helpless to make this undone
All in due time
See the world through different eyes
All in due time
The shadows will give way to light
How much more can I give of myself?
As these walls close in on me
As I slip down into this dispair
There is nothing to attain
What victory when my soul is weak?
Where does my help come from?

All in due time
See the world through different eyes
(I see the world through different eyes)
All in due time
The shadows will give way, give way to light
All that we suffer through, leads to determination
The trials we all go through, gives us the strength to carry on
Something within us burns, desire feeds the will to live
A reason to believe
I will see redemption
(Yeah)
All in due time
See the world through different eyes
(I see the world through different eyes)
All in due time
The shadows will give way to light
(All in due time)
(Yeah)
