

# Spring Vacation

## Beach Boys

Driving around living the dream  
I'm crusin' the town, diggin' the scene  
I'm not gonna stress, not gonna worry  
Doing our best, no need to hurry  
Lookin' ahead with anticipation  
Making each day a new celebration  
Seems like it could go on forever  
Long as we can all stay together  
We use to get around  
Get up and hit up  
All the hot spots in town  
Spring Vacation  
Good vibrations  
Summer weather  
We're back together  
Easy money, ain't life funny  
Hey what's it to ya  
Halleluiah [sic]  
As for the past, it's all behind us

Happier now, look where life finds us  
Singing our songs is enough reason  
Harmony boys is what we believe in  
Some said it wouldn't last  
All we can say is we're still having a blast  
Spring Vacation  
Good vibrations  
Summer weather  
We're back together  
Easy money, ain't life funny  
Hey what's it to ya  
Halleluiah [sic]  
Every night's a special occasion  
Spring Vacation  
Good vibrations  
Summer weather  
We're back together  
Easy money, ain't life funny  
Hey what's it to ya

Halleluiah [sic]
