

Straight Razor Rape

[Cancerslug](#)

why the fuck did you cut off that bitches cunt?
well how the fuck else could i get it in my pocket?
and while im standing here arguing with myself
i know that i should be getting my ass somewhere else
blood on my hands
the tears in her eyes
please undertsand
there will be peace when you die
i know what it takes
to make a heart ache
a straight razor rape
you werent the first
you wont be the last
give me a break and take your own life
