

This Poison

The Sweetest Condition

One story ends, another begins.

Let's hear your testimony....It's inside our blood, chosen by fate,
our hunger to satiate.I can't get enough, can't get enough,
can't get enough of this poison.Feels like a drug. The damage is done.

I can't outrun this poison.Chance played a role, not yet revealed.
Made a mistake, my fate was sealed.I can't get enough, can't get enough,
can't get enough of this poison.Feels like a drug. The damage is done.

I can't outrun this poison.Now I know, we share the blame.

All it cost was my good name.
