

Over

Mercy Drive

Nothing, was real, i wanted
Something, to feel, so jaded Somehow, they breathe, i'm choking
Seek out, release, from love that Another day
Another way
Another message you've erased
And whose to know where i belong
And where i'll find you then This part, of me, you've taken
I ain't real, my dreams, awaken Another day
Another way
Another message you've erased
And whose to know where i belong
And where i'll find you then [Guitar Solo] Another day
Another way
Another message you've erased
And whose to know where i belong
And where i'll find you then Another day
Another way
Another message you've erased
And whose to know where i belong
And where i'll find you then!
