

Lost In the Dark

The Word Alive

Can't believe that this is our reality
How far we came, now hate is all we see
Where do we go now?
I thought that we were better than this
Where do we go now?
Why can't we be better than this?
(We're better than this) We live in a world that longs for peace
Desperate to set our passion free
But we're falling apart, we're lost in the dark
We're falling, we're falling apart lost in the dark
I know you see that it's grown bigger than just you and me
I thought that we were better than this
Where do we go now?
Why can't we be better than this?
(Better than this) We live in a world that longs for peace
Desperate to set our passion free
But we're falling apart, we're lost in the dark
We're falling, we're falling apart lost in the dark Where do we go now?
When did we forget we're all the same?
Where did we go wrong?
I wish I knew better than to let this get the best of me
I have to give what's left inside of me
I wish I knew...
We live in a world that longs for peace
Desperate to set our passion free
But we're falling apart, we're lost in the dark
We're falling, we're falling apart lost in the dark
