Day in the Sun

Derek Sherinian

Here's what you can dream on
And it's all I can give you
Come with me now
And leave it all behind
I don't know what you want me to say
It's been too long let's fly away
Waiting for no one, only the waiting
For our day in the sun
Live to the rhythm, the rhythm of living
For our day in the sun
When you start to feel
You've had all you can take
Time keeps on moving
But this mood you can't shake
When I hear you talk in you're sleep
I know where blue water's run deep
Waiting for no one, only the waiting
For our day in the sun
Live to the rhythm, the rhythm of living
For our day in the sun
Waiting for no one, only the waiting
For our day in the sun
Listen to me and I want to tell you
Got a love, got a love that's inside
And you gave it back to me, yeah
I don't know what you want me to say
It's been too long let's fly away
Waiting for no one, only the waiting
For our day in the sun
Live to the rhythm, the rhythm of living
For our day in the sun
Every time we're apart
I get this feeling, I don't want to start
I want you back
'Cause I don't ever have to be without you
Alright baby
